

XM radio is a very important part of my life. As a manager for a consulting company I am on the road all the time, usually traveling a 100 miles at a time to visit clients and ensure the work of our consultants. Thanks to XM, I am able to listen to very entertaining and often educational channels as I travel. Though my travels presently do not take me to areas where there are traffic broadcasts, I sometimes listen to them and wish XM covered more cities in their traffic reports. I feel its important to let XM broadcast.
